If you do not agree with the terms and provisions of this agreement, you are in the case of the delivery of the title application on CD-ROM to return the unopened container together with the remaining materials to me or to the distributor from whom you acquired it. This package includes software and associated explanatory material. The terms software and application titles also include all upgrades, all modified versions, updates, additions, and copies of the software you licensed by Karsten Worm.

I, Karsten Worm, InfoSoftWare, grant you a nonexclusive licence to use the software and accompanying materials insofar you agree to the following conditions.

1. Use of the Software

With the acquisition (purchase) of the title applications and the software: ViewLit - Professional related standard licences:

a.) Private single-user licence (Private Einzelplatzlizenz (Nur für Privatkunden)):

a.) You may install the Software on a single computer, without passing neither the CD-ROM, nor the software or the texts, fonts, or any distributive material of the database down to a third party (see also below passage 2 and 3). A personal second installation - for example on a laptop beside to a desktop installation - is approved, as far as the use of the program and each title application is limited on the sole owner (or purchaser), and simultaneous access by third parties is excluded.

b.) Institutional licence (Multi user in locally limited standalone installation in a public library or reading room within the rooms of a specialized institute) (Institutionelle Lizenz (Mehrfachnutzungsmöglichkeit, bei lokal begrenzter Einzelplatzinstallation im Lesesaal einer öffentlichen Bibliothek oder innerhalb der Räumlichkeit eines Fachinstituts)):

You are allowed to install the software within a single library, an institution or public entity on one computer, so that the via setup installed program *ViewLit Professional*, fonts, and the title application physically are generally available locally only on one within the institution (typically in the reading room of a library) stationed computer! Herein is also allowed to install in the premises of the special institution - like a reading room with several computers - limited to a small network with one simultaneous access. c.) Campus network licence (Campusnetzlizenz):

Furthergoing licences for the installation of program and program components for special institutions including campus-wide network access (where the program, fonts and title application are server based installed and can be accessed via Metaframe client or similar programs) are separately available and depend on the number simultaneously provided user requests. A further licence in feeding a nationwide network for example via the Internet (beyond a regular campus wide access by an external use via home accessibility) without an extended proper licencing and without the express approving on the part of the publisher is prohibited.

d.) Institutional or campus wide secondary licence (Institutionelle oder campusweite Zweitlizenz):

In addition to the standard licence price for the use within a library or institute, normally the 2-times of the private single-user licence (less of the price of a possible owned private single-user licence and under the pre-purchased tracks) plementary discounted licences (including a second CD) are provided for each additional simultaneous access. Especially for the programm based way of ViewLit-Professional to enable simultaneous parallel search and access to other applications installed and licenced tracks ("Querfeldeinrecherche") from the current application, the purchase of a secondary licence is needed, precisely when herby always more than one instance of the main program and the respective title application would be loaded.

I agree with the above terms

- pursuant to private single-user licence (1a)
- pursuant to the terms of use for institutional facilities (1b) agrees.

I am aware that the use of the CD-ROM (or Download) within an institution requires in any case an additional fee (Nachlizenzierung), if the CD has been pre-purchased at conditions and price of private single user licence. The surcharge is usually the twice of the private single-user licence for network licencing, the fivefold (single campus licence), less the price of the before purchased CD.
